- 5. EURARI's spencership of the entry of an alien into this country is outcide normal channels. This procedure is closely administered and the alien's entry requires the approval of the Mirester, EURARE, and the concurrence of Identities A and B. Detailed justification is required for the Director's approval. The following preliminary procedures are required prior to officially requesting an alien's entry:
  - a. Processing through LOTISTER,
  - b. A medical and psychiatric examination,
  - e. Approval by MUSODA,
  - d. Spensorship of the alien agreed to by KUJUMP.
- 6. Headquarters cannot foreste any great value to this organization if STERANT were brought to this country. He might possibly be of greater value if he were to go to India for study, which would give him percenal cover and operational potential.
